

Included in the package

--> Headlight Eyebrows (Pair)

We highly recommend having your products installed by a specialist.

Installation

Resources
needed!

Sandpaper - Silicone - Masking Tape - Cloth

At least two people

Around 20 min

Sanding

Sand lightly the **inside** surface of the eyebrow with a 240 dry sandpaper. Then, clean the eyebrow and the headlight and let the surfaces dry.

Centering

Align the eyebrow on the headlight, to find the right place for the product to be installed.

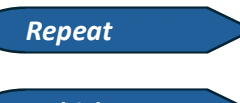

Attaching

Apply silicone over the product's surface that attaches to the headlight. Then, re-center it.

Excessive silicone could overflow and become visible once the eyebrow is attached.

Securing

Press down and secure the eyebrow with suitable strong adhesive tape.

The adhesive tape should hold the product on the headlight tightly.

Repeat

Repeat the steps for the other eyebrow.

Vehicle Use

The vehicle is now ready to be used according to the instructions below.

12h
