GB

Drawing of the reinforcement of the original lower bracket, rear side.

Weld the reinforcing plate **K** to the original bracket (**L** and **M**) in order to prevent breakage of same. Fit the damper **C**.

NL

Schets van de versterking van het originele onderhulpstuk, achterzijde.

Las de versterkingsstrip **K** in het originele hulpstuk (zie **L** en **M**), ten einde breuk van dit hulpstuk te voorkomen en montere de schokdemper **C**.

F

Croquis du renforcement de la ferrure inférieure d'origine, côté arrière.

Souder la pièce de renfort **K** dans la ferrure d'origine (**L** et **M**) afin de prévenir que celle-ci se casse. Monter l'amortisseur **C**.

D

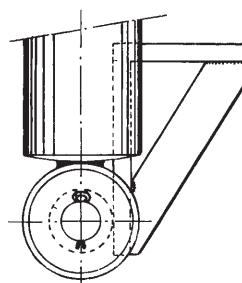

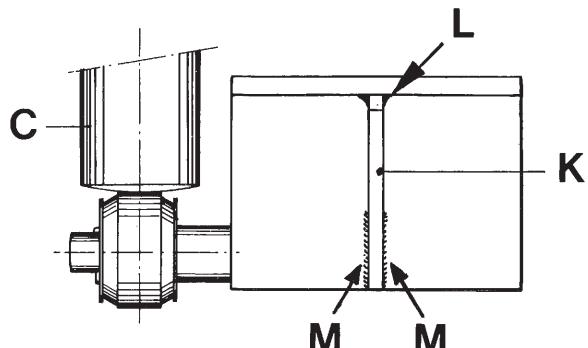

Skizze der Verstärkung des unteren Originalanbauteiles, Hinterseite.

Schweiße den Verstärkungsstreifen **K** in das Originalanbauteil (**L** und **M**), um Bruch desselben vorzubeugen. Montiere den Stossdämpfer **C**.
