

POWERBOX Series 4 CHANNEL STEREO AMPLIFIERS CLASS D AMPLIFICATION

The Powerbox 4 channel amplifiers are an entry level amplifier series with a compact size and optimisation to allow for better integration with OEM Headunits

Being 4 channel micro amplifiers, the amps have versatile applications, perfect for smaller installs where space saving and efficiency are key.

| | |
|--------------------|--|
| Model | POWERBOX65.4M-V7 |
| Configuration | 4 channel |
| Dimensions (HxWxD) | 1.5" x 7.4" x 3.2" (37x 187 x 82mm) |
| RMS @ 4Ω Stereo | 4 x 65 watts |
| RMS @ 2Ω Stereo | N/A |
| RMS @ 4Ω Mono | N/A |
| Maximum Power | 520 watts |
| Frequency Response | 10Hz - 30kHz |
| Crossover Type | HP / Flat |
| Topology | Micro Class D |

COMPACT FOOTPRINT - Our Powerbox series feature micro class D technology to pack a big punch in comparison to there size due to smaller internals.

OEM INTEGRATION - Using the High level input allows for seamless integration with oem headunits. Making for a quick install for systems where using an aftermarket headunit is not an option.

OPTIMISED FUNCTIONS - The Powerbox Micro 4 channel amps feature a high pass filter to protect your speakers from playing too low, as well as a no filter (flat) for when a filter is not needed.

VERSATILITY - The compact size allows for the amplifier to be easily hidden, the auto sense means no remote wire is needed making for easier integration with systems.

HIGH PASS FILTER

Built in high pass filter to adjust the low frequencies outputted from the amplifier.

CLASS D

Class D technology allows for ultra efficiency and high power output, whilst keeping a small footprint for the amplifier.

High Pass Filter

Built in High pass filter to adjust the low frequencies outputted from the amplifier. Protecting your midrange from playing Sub bass

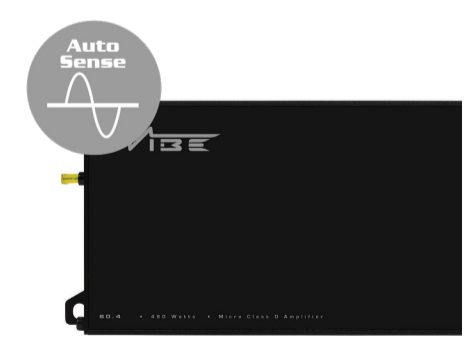

Micro

Micro architecture allows this amp to be installed in tight space, such as behind a glovebox. For a more OEM looking install.

HIGH LEVEL INPUT

When installing into an OEM head-unit our Powerbox series box has high level input, meaning the amp can installed easily without an aftermarket head-unit.

AUTO SENSE

For easy integration we have included auto-sense turn on, this means for OEM installations there is no need to find a remote turn on signal when Installing into any vehicle.
